

# Give yourself some credit.

When you bank with First National, you help us support community groups and events, a commitment that's grown to more than \$1 million over the years. For every home, car or business loan along with every checking account, First National customers can take credit for their part in making it happen.

*Making wise investments here at home, where they do the most good – that's the power of local banking.*

In 2014, First National provided over \$90,000 in financial support and our 'Employee Service Club' volunteered nearly 1,000 hours toward helping improve the quality of life across Livingston County with these and other activities.
